

Westport Fair Scholarship in Memory of Michael C. Lees II

Founder and owner of Lees Landscaping & Excavation, Michael's dedication to hard work, integrity, and service left a lasting impact on the Westport community.

As a local business owner, mentor, and friend to many, Michael believed in the value of honest work, taking pride in one's craft, and giving back to others. Through years of building and growing his landscaping business, he created not only beautiful outdoor spaces but also meaningful opportunities to make connections and take risks to follow his dream. This scholarship honors his legacy by supporting high school seniors who embody his values; strong work ethic, commitment to community, and a desire to build a meaningful future, through entrepreneurship.

Open to high school seniors in Bristol County seeking studies in construction management, business, landscape, architecture, or engineering.
